While here, they also checked all new students and the students that were referred for screening by teachers. Mr. Coston and Mr. Freeman have started the process through the State of Texas for a dental hygiene check on our student for the week of February 15, 2016. As a result of the committees concern about health class, the freshmen will be enrolled in health for the Spring semester.

Students are more active in the PE classes and enjoying the new equipment purchased.
